PROFESSIONAL SUMMARY

Principal Engineer, Microsoft Solutions, with 18+ years supporting Microsoft enterprise infrastructure at Dell Technologies, specializing in Windows Server, Windows Failover Clustering, Hyper-V, Storage Spaces Direct (S2D), and Azure Local. Sole Microsoft escalation engineer for Brazil and member of a global Level 3 (L3) pool, with 99% annual customer satisfaction (CSAT) and a 15-minute average time to engage. Skilled in Windows Internals, WinDbg debugging, and PowerShell automation, with hands-on experience in Microsoft Defender for Endpoint (MDE), Microsoft Sentinel, and Microsoft Entra ID. Built an automated log-collection tool adopted by all Dell support teams and mentored approximately 10 analysts. Fluent in English and Portuguese.

CORE COMPETENCIES

Infrastructure: Windows Server (all supported releases, including 2022 and 2025), Windows Failover Clustering, Hyper-V, Storage Spaces Direct (S2D), Azure Local (formerly Azure Stack HCI), Azure Arc, Active Directory

Debugging and Performance: Windows Internals, Kernel Debugging, WinDbg, Memory Dump Analysis, Sysinternals Suite, Windows Performance Recorder (WPR), Windows Performance Analyzer (WPA), Performance Analysis, Root Cause Analysis

Security and Cloud: Microsoft Defender for Endpoint (MDE), Microsoft Sentinel, Microsoft Entra ID, Microsoft Intune, Azure Monitor

Automation and Support: PowerShell Scripting, Log-Collection Automation, L3 Escalation Management, Critical Incident Management, Technical Mentoring, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Technical Support Engineer, Security & Compliance (Microsoft Defender for Endpoint) | Microsoft

Remote, Brazil | Mar 2026 - Jul 2026

- Handled approximately 60 customer cases for Microsoft Defender for Endpoint (MDE), including environments using Microsoft Sentinel, Microsoft Intune, and Microsoft Entra ID.
- Developed an internal tool for analyzing Microsoft Defender logs, used to accelerate own case investigations.
- Reproduced and documented product defects from own customer cases, working with engineering teams to deliver patches and product improvements.

Microsoft Principal Engineer, Solutions Support Team (SST) | Dell Technologies

Eldorado do Sul, RS / Remote, Brazil | Jul 2016 - Feb 2026

- Served as the sole Microsoft escalation engineer for Brazil and as a member of a global L3 pool, handling approximately 250 cases per year in total, including an average of 10 escalated cases per month with higher volumes during peak periods.
- Delivered 99% annual CSAT with a 15-minute average time to engage (TTE) and a 4-day average time to close (TTC).
- Acted as L3 support for a regional team of approximately 150 analysts and as focal point for Microsoft Enterprise solutions, supporting Sales, Field Implementation, Support, and Engineering.
- Coached and mentored approximately 10 analysts in Microsoft troubleshooting and escalation practices.
- Developed a universal automated log-collection tool, now used by all Dell support teams.
- Resolved production-down events, clustering failures, virtualization platform disruptions, and service outages on Windows Server, Hyper-V, S2D, Azure Local, and Azure Arc using WinDbg, Sysinternals, Windows Performance Recorder (WPR), and PowerShell.
- Prioritized and resolved severity-1 escalations throughout the COVID-19 pandemic for life-critical environments, including hospitals, clinics, laboratories, and TV and radio broadcasters, restoring services with minimal downtime.
- Led a 48-hour remote recovery of a food-industry customer's Microsoft environment after an incorrect field intervention, restoring operations with zero data loss.
- Identified product defects by formulating hypotheses, reproducing issues in lab simulations, and collecting technical evidence, leading to driver and firmware corrections and Windows hotfixes from Microsoft.

Senior ProSupport Engineer, Microsoft - LATAM | Dell Technologies

Eldorado do Sul, RS / Remote, Brazil | Jul 2014 - Jul 2016

- Provided Level 2 (L2) technical support and escalation handling for Microsoft and Intelligent Data Management (IDM) solutions to enterprise customers across Latin America, handling approximately 250 cases per year.

Network Operating System (NOS) Advisor | Dell Technologies

Eldorado do Sul, RS, Brazil | Jun 2011 - Jul 2014

- Provided L2 software support for Microsoft, IDM, Symantec, and AppAssure solutions, handling approximately 250 cases per year.
- Trained and mentored Level 1 (L1) teams on Microsoft and Dell solutions.
- Instructed the Student 2 Business Advanced (S2BA) program, training 30 students.

Technical Support Storage Senior Analyst | Dell Technologies

Eldorado do Sul, RS, Brazil | Jun 2010 - Jun 2011

- Supported storage and backup environments (EMC, EqualLogic) and backup applications including CommVault, NetBackup, and Backup Exec; technical point of contact for Backup Exec within the storage team.

Technical Support Analyst | Dell Technologies

Eldorado do Sul, RS, Brazil | Nov 2008 - Jun 2010

- Diagnosed and resolved operating system and server infrastructure issues in Windows Server environments.

Technical Support Specialist | Dell Technologies

Eldorado do Sul, RS, Brazil | Nov 2007 - Nov 2008

- Diagnosed and resolved hardware issues in enterprise server infrastructure.

EDUCATION

Bachelor's Degree in Computer Science | Universidade Feevale | Novo Hamburgo, RS, Brazil | 2000 - 2008
